

R Y2-2

Vacuum Pump to Evacuate Test Cells

This vacuum pump equipment is used to evacuate the following test cells:

- Type RY2 for solid insulants

Scope of Supply

Type RY2-2 vacuum-pump equipment

Vacuum hose(d=7mm,L=2m) for type RY1

test cell 1 container of special oil,

Mains power cable,manual:

Mains 230V,50 or 60 Hz
115V,50 or 60 Hz

Technical Specifications

Air displacement 5 l/min.Maximum possible vacuum:

without hose and test cell $\approx 3 \times 10^{-3}$ mbar(0.3Pa)

with hose and test cell $\approx 3 \times 10^{-2}$ mbar(3 Pa)

Dimensions:

300*100*27 mm (L*W*H)

Weight: 15kg

Voltage supply: 230V,50 or 60 Hz;115V,50 or 60 Hz
